Campus de Neurochirurgie

---

D.E.S. de Neurochirurgie - enseignement par visioconférence  
Bordeaux le 22 janvier 2010

---

**Programme (modules 7 et 12 )**

- *méningiomes*
- *hématome sous-dural-chronique*

► Veuillez tenter de trouver l'article de E Cuny, Neurochirurgie 2001, 47 (5) 464-468.

---

***Meningiomas : causes and risk factors***

Jill S. Barnholtz-Sloan, Ph.D., and Carol Kruchko, B.A.  
Neurosurg Focus 23 (4) :E2, 2007

***Serial volumetric assessment of the natural history and growth pattern of incidentally discovered meningiomas***

Tetsuo Hashiba, M.D., Ph. D., Naoya Hashimoto, M.D., Ph. D., Shuichi Izumoto, M.D., Ph. D., Tsuyoshi Suzuki, M.D., Ph. D., Naoki Kagawa, M.D., Ph. D., Motohoko Maruto, M.D., Ph. D., Amami Kato, M. D., Ph. D., and Toshiki Yoshimine, M.D., Ph. D.  
J Neurosurg 110:675-684, 2009

***Histological classification and molecular genetics of meningiomas***

Marcus J Riemenschneider, Arie Perry, Guido Reifenberger  
Lancet Neurol 2006 ;5:1045-54

***Preoperative neuroimaging findings as a predictor of the surgical plane of cleavage : prospective study of 100 consecutive cases of intracranial meningioma***

Jorge E. Alvernia, M.D., and Marc P. Sindou, M.D., D. SC.  
J Neurosurg 100:422-430,2004

***Surgery and radiotherapy : complementary tools in the management of benign intracranial tumors***

Walter D. Johnson, M.D., F.A.C.S., Lilia N. Loredó, M.D., and Jerry D. Slater, M.D.  
Neurosurg Focus 24 (5):E2, 2008

***Intracranial meningiomas : an overview of diagnosis and treatment***

Jason Rockhill, M.D., Ph.D., Maciej Mrugala, M.D., Ph.D., M.P.H., and Marc C. Chamberlain, M.D.  
Neurosurg Focus 23 (4):E1, 2007

***Outcome of contemporary surgery for chronic subdural haematoma : evidence based review***

R Weigel, P Schmiedek, J K Krauss  
J Neurol Neurosurg Psychiatry 2003 ;74:937-943

***Efficacité de la corticothérapie dans le traitement adjuvant des hématomes sous-duraux chroniques. Etude rétrospective sur 198 cas***

G. Dran, F. Berthier, D. Fontaine, D. Rasenrarijao, P. Paquis  
Neurochirurgie 53 (2007) 477-482

***Various Surgical Treatments of Chronic Subdural Hematoma and Outcome in 172 Patients : Is Membranectomy Necessary ?***

Jin-Yul Lee, M.D., Heinrich Ebel, M.D., Ralf-Ingo Ernestus, M.D., and Norfrid Klug, M.D.

Surg Neurol 2004 ;61:523-8

**Quizz : Méningiomes**
